

Multi-Purpose Lubricant Spray for Hardware and Industrial Use

This multi-purpose spray is designed for hardware and industrial applications. It penetrates, lubricates, loosens seized parts, and protects against rust and corrosion.

Product Overview

Versatile Industrial Lubrication

This multi-purpose lubricant spray is engineered for demanding hardware and industrial applications. It serves as a comprehensive maintenance solution, effectively penetrating, lubricating, and loosening seized or sticking components. Additionally, the formula provides robust protection against rust and corrosion while removing moisture and stopping squeaks.

Key Benefits

Rust Protection, Corrosion Resistance, Moisture Removal, Stops Squeaks, Penetrating Action
