

Multi-Purpose Mill and Drill Grinder

This multi-purpose grinder is designed for sharpening both mills and drills. It offers double functionality in one machine, providing easy operation and reduced costs.

Overview

Compact and portable multi-purpose grinder designed for precision tool maintenance.

Professional Multi-Purpose Grinding Solution

This multi-purpose grinder is engineered for the precise sharpening of both end mills and drill bits, offering a dual-function solution for tool maintenance. Designed with efficiency in mind, the unit supports a wide range of flute counts and geometry adjustments, helping to extend the service life of cutting tools. Its compact footprint makes it an ideal addition to machine shops and tool rooms requiring consistent, high-quality results.
