

Multi-Speed Immersion Hand Blender Set

This versatile hand blender set is designed for various kitchen tasks. It includes a powerful hand blender with variable speed settings, a whisk attachment, a blending beaker, and a chopper attachment.

Overview

Professional Multi-Speed Immersion Blender Set

This high-performance immersion blender set is engineered for versatility and durability in commercial or high-volume kitchen environments. Powered by an 800W DC motor, it features variable speed controls with intuitive indicator lights for precise blending. The robust stainless steel construction ensures longevity, while the comprehensive range of included attachments allows for seamless transitions between chopping, whisking, mashing, and food processing tasks.
