

Multi-Spoke Alloy Wheel

This alloy wheel is designed for enhanced vehicle aesthetics and handling. It is constructed from lightweight yet durable alloy material and has a maximum load weight of 735KG.

Overview

High-Performance Multi-Spoke Alloy Wheel

This high-performance alloy wheel is engineered for both enhanced vehicle aesthetics and improved handling. Featuring a sophisticated multi-spoke design with a glossy black finish and white accents, it offers a distinct look while providing lightweight durability. Designed for optimal heat dissipation and brake cooling, this wheel is compatible with modern tire pressure monitoring systems (TPMS) and includes a center cap for a complete finish.

Technical Specifications

Available Sizes	15 Inch - 18 Inch
PCD Configuration	4-100, 4-120, 5-100, 5-120

Features

Key Features

- Lightweight alloy construction
- Glossy black finish with white accents
- Improved heat dissipation
- Enhanced brake cooling
- TPMS compatible
- Center cap included
