Overview

High-Performance Multi-Spoke Alloy Wheel

This high-performance alloy wheel is engineered for superior strength and lightweight construction, offering a significant upgrade for vehicle handling and aesthetics. The multi-spoke design is not only visually striking but also functional, promoting improved brake cooling during operation. Manufactured to meet stringent quality standards, these wheels provide a reliable and durable solution for professional automotive upgrades.

Technical Specifications

Wheel Diameter

19 inch
Size

Pitch Circle Diameter (PCD)

5-100, 5-120

Design & Construction

Key Features

- Lightweight construction for improved handling
- Enhanced aesthetics with a sleek, modern finish
- Optimized spoke pattern for brake cooling
- High-strength alloy material

Design Style

Multi-spoke

Quality & Standards

Quality Certifications

VIA • JWL

Reliability

Manufactured to meet stringent quality standards for long-term durability.
