Product Overview

High-Performance Multi-Spoke Alloy Wheel

This multi-spoke alloy wheel is precision-engineered to enhance both vehicle aesthetics and handling performance. Constructed from lightweight yet durable materials, it is designed to improve acceleration, braking, and overall driving dynamics while maintaining structural rigidity. Its modern, intricate design ensures a touch of elegance and long-lasting reliability for a variety of vehicle makes and models.

Technical Specifications

Available Sizes

15 inch

Min Diameter

18 inch

Max Diameter

PCD Range

4/5*100-114.3

Design & Construction

Performance Features

- Lightweight construction for improved acceleration
- Enhanced braking dynamics
- High structural rigidity
- Modern elegant aesthetics

Design Style

Multi-spoke
