

Multi-Story Residential Building

This is a multi-story residential building designed with a symmetrical facade. It features evenly spaced windows and balconies.

Overview

Health Estate Residential Design

This multi-story residential building features a classical architectural design, emphasizing symmetry and structural elegance. The facade is characterized by evenly spaced windows and integrated balconies, providing a balanced aesthetic suitable for modern residential developments. With a distinct stone-like finish on the lower level and a light-colored upper structure, the building offers a sophisticated appearance for urban or suburban settings.
