

Multi-Surface Cleaning Machine

This machine is designed for cleaning multiple surfaces. It provides a practical solution for maintaining cleanliness in various environments.

Product Overview

Professional Multi-Surface Cleaning Solution

This advanced multi-surface cleaning machine is engineered to deliver high-efficiency sanitation across diverse environments. Designed with versatility in mind, it effectively handles various floor types and surfaces, ensuring a thorough clean with minimal effort. Its robust construction and intuitive operation make it an ideal choice for maintaining hygiene standards in commercial and residential settings.

Key Performance Metrics

Cleaning Efficiency

98 %

Surface Coverage Rate

1500 sqm

Hourly Output

Technical Specifications

Operational Features

- Multi-surface adaptability
- Ergonomic handle design
- High-torque motor
- Quick-change attachments

Power Source

Electric

Compatible Surfaces

Hardwood, Tile, Laminate, Granite, Stainless Steel

Certifications

Compliance & Standards

CE Certified • ISO 9001 • RoHS Compliant
