Product Overview

Portable steam cleaner unit designed for effective grime removal in tight spaces.

Professional-Grade Multi-Surface Cleaning

This versatile multi-surface steam cleaner offers a chemical-free, high-pressure sanitizing solution for a wide range of household and professional environments. Engineered with a durable aluminum boiler and a generous 1200ml capacity, it provides consistent steam performance for up to 20 minutes of continuous operation. Its mobile design, complete with integrated wheels and a flexible hose, ensures ease of maneuverability across various floor types and difficult-to-reach spaces.

Key Features

- Integrated indicator lamp
- Chemical-free cleaning
- Canister-style mobility
- Flexible hose for reach
