

Multi-Tool Shovel with Serrated Blade

This multi-tool shovel is designed for various outdoor tasks, including gardening, camping, and survival situations. It features a durable steel blade with serrated edges for cutting through roots and tough materials.

Product Overview

Versatile Multi-Tool Shovel

This multi-function shovel is engineered for diverse outdoor tasks, ranging from gardening and camping to emergency survival situations. Featuring a durable 50Mn carbon steel blade with a sharpened, serrated edge, it is capable of cutting through roots and tough materials with ease. The ergonomic wooden handle includes integrated depth markings, while the shovel head itself incorporates additional utility tools like a bottle opener, hex wrench cutouts, and a saw.
