

Multi-Tool Steel Shovel with Serrated Blade

This multi-function shovel is designed for gardening and outdoor tasks. It features a durable steel blade with serrated edges, a comfortable wooden handle, and integrated tools like a saw, bottle opener, and wrench holes.

Product Overview

Versatile Multi-Function Shovel

This multi-function shovel is engineered for durability and versatility in outdoor and gardening environments. Constructed with a high-strength 50Mn carbon steel head and a robust ash wood handle, it is built to withstand demanding tasks. Beyond standard digging, it integrates essential features like a serrated edge, bottle opener, and hexagonal wrench, making it an indispensable tool for camping, hiking, and emergency preparedness.
