Product Overview

Versatile Emergency Illumination

This multifunction emergency light is engineered for durability and reliable performance in demanding environments, making it an essential tool for off-road recovery and emergency signaling. It features a robust, compact construction that withstands harsh conditions while offering multiple lighting modes including focused beams, wide-angle floodlighting, and red emergency signaling. Designed for maximum portability, it is ideal for vehicle repairs, camping, and emergency situations.

Key Features

Operating Modes

- High-intensity LED flashlight
- Wide-angle floodlight
- Red emergency flashing signal

Build Quality

Robust construction, Compact design, Lightweight, Weather-resistant

Technical Specifications

Power Supply

Rechargeable internal battery

Mounting Type

Integrated magnetic base for vehicle surface attachment

Applications

Primary Use Cases

Off-road recovery • Vehicle repair • Emergency signaling • Camping • Hiking
