Product Overview

Versatile Construction Spraying Solution

This compact and efficient material spraying machine is engineered for high-performance construction applications. Designed with a robust motor and a large-capacity hopper, it handles a wide variety of construction mixtures including screed mortar, cement plaster, and jobsite mixes. Its portable, wheeled design ensures easy maneuverability across diverse job sites, making it an essential tool for professional plastering and coating tasks.

Technical Specifications

Motor Type	DC Brushless Motor
Voltage	230 V
Frequency	50 Hz
Motor Output	3000 W

Performance Metrics

Key Performance Metrics

20 L/min Max Delivery Rate	38 Kg Max Operating Pressure	30 M Max Delivery Height	90 M Max Delivery Radius
--------------------------------------	--	------------------------------------	------------------------------------

Capacity and Handling

Hopper Capacity	70 L
Max Grain Size	5 mm

Application Suitability

Supported Materials

Jobsite Mixture, Screed Mortar, Cement Plaster
