

Multifunctional 4-in-1 Juicer, Blender, Chopper, and Grinder

This versatile kitchen appliance combines juicing, blending, chopping, and grinding functions. It is constructed with durable plastic components and includes multiple detachable attachments for efficient food preparation.

Product Overview

Versatile 4-in-1 Kitchen Solution

This multifunctional kitchen appliance combines juicing, blending, chopping, and grinding capabilities into one streamlined, European-inspired design. Engineered with advanced motor technology and food-grade materials, it offers reliable performance for professional or home environments. The system features durable alloy blades and specialized safety mechanisms, including a splash-proof inner cover, to ensure efficient food preparation and user safety.

Design & Construction

Material Standards	Food Hygiene Grade, Environmental Protection, Durable Plastic
