Overview

Professional Digital Weighing Solution

This multifunctional digital scale is engineered for high-precision weighing, counting, and percent-weighing applications in warehouse, retail, and industrial environments. Featuring a rugged ABS housing and a removable stainless steel platform, it ensures durability and easy sanitation. The system offers versatile connectivity with RS232 and USB ports, supported by a high-precision load cell for reliable, repeatable measurements.

Technical Specifications

System Resolution	1/30,000
Display	2-inch (50mm) high backlit LCD
Power Source	12V 500mA Adapter, 6V 4Ah Rechargeable Battery
Connectivity	RS232, USB
Operating Temperature	-10°C to 40°C (14°F to 104°F)

Capacity & Models

Model Capacity Table

Model	Capacity (Metric)	Capacity (Imperial)
EHC-WF-6	6kg x 0.2g	15lb x 0.0005lb
EHC-WF-15	15kg x 0.5g	30lb x 0.001lb
EHC-WF-30	30kg x 1g	60lb x 0.002lb
EHC-WF-60	60kg x 2g	120lb x 0.005lb

Physical Construction

Platform Dimensions	335mm x 225mm (13.2" x 8.9")
Housing Material	Rugged ABS
Platform Material	Stainless Steel

Certifications

Compliance

CE • WEEE • UL Approved Adapter • Energy Approved
