Product Overview

Sleek, modern design that integrates perfectly into any kitchen environment.

Advanced Food Purification Technology

This multifunctional disinfection and washing machine provides a comprehensive solution for food safety, utilizing advanced electrolysis and ionization technology to effectively remove pesticide residues, bacteria, and hormones from produce, meat, and seafood. Designed for modern households, the device is fully waterproof and features a convenient one-button operation that automatically processes food in just five minutes. Its compact, rechargeable design ensures it fits seamlessly into any kitchen, helping you maintain a healthier and safer environment for your family.

Technical Specifications

Rated Voltage	7.4 V
Rated Power	18 W
Weight	1.5 kg
Charging Time	3.54 hours
Device Dimensions	!180x 210mm

Key Features

IP67 waterproof rating allows for safe and reliable operation while submerged.

Waterproof Rating

IP67

Suitable Applications

- Fruits and Vegetables
- Meat and Seafood
- Baby Bottles and Toys
- Jewelry and Glasses

Core Benefits

Pesticide Removal, Bacterial Elimination, Hormone Decomposition, Virus Neutralization

Processing Time

Usage Guidelines

The device features unique water-start technology; simply submerge it in water above the minimum level to begin processing. It will automatically shut down after 5 minutes or when removed from the water. For long-term storage, ensure the device is dried completely and stored in a clean, flat, and dry place. Keep out of reach of children and do not use as a toy.
