Overview

Professional Induction Cooking Solution

This multifunctional induction cooktop combines modern design with robust performance for versatile kitchen environments. Equipped with high-quality IGBT components, it offers precise temperature and power control, making it suitable for a wide range of cooking methods from gentle simmering to high-heat stir-frying. Safety features, including high-temperature and voltage protection, ensure reliable operation in professional or commercial settings.

Performance

Power Output

300 W

Minimum Power

2000 W

Maximum Power

Temperature Control

60 °C

Min Temperature

240 °C

Max Temperature

Features

Convenience Features

- Timer/Preset options
- Keep-warm function
- Digital display
- Touch-sensitive controls

Preset Cooking Modes

Soup, Boiling, Steaming, Hot Pot, Stir-fry, Barbecue, Porridge, Milk Warming

Safety & Construction

Safety Protections

- High temperature protection
- High voltage protection
- Low voltage protection
- Residual heat warning

Build Materials

Ceramic glass surface with high-quality IGBT components
