

Multifunctional Juicer and Blender Combo

This versatile kitchen appliance combines juicing and blending capabilities. It features a powerful motor for efficient juice extraction from fruits and vegetables, and a separate blending jar for smoothies and other blended drinks.

Product Overview

Versatile Kitchen Solution

This multifunctional appliance seamlessly combines a juicer extractor, blender, and dry miller into one powerful unit. Designed for efficiency and durability, it features high-quality stainless steel components and robust glass jars for blending and milling. With built-in safety mechanisms and a user-friendly design, it is an ideal addition to any professional or home kitchen environment.
