

# Multifunctional Kitchen Cooking Blender

This cooking blender simplifies meal preparation with a robust motor and durable blades. It features pre-programmed settings for soup making, soy milk, and smoothies, with a digital control panel for precise cooking.

## ADDITIONAL IMAGES

## Product Overview

### Versatile Professional Cooking Blender

This multifunctional cooking blender is designed for high-performance meal preparation, combining a powerful 1500W motor with 600W fast-heating technology. It features 10 pre-programmed cycles and a durable 1.75L glass jug, making it ideal for everything from hot soups and soy milk to cold smoothies and nut grinding. With its cold-forged stainless steel blades and advanced safety locking systems, it offers professional-grade reliability for modern B2B kitchen appliance portfolios.

## Technical Performance

### Key Performance Metrics

**1500 W**

Motor Power

**600 W**

Heating Power

**24000 RPM**

Rotational Speed

### Electrical Requirements

- 220-240V 50-60Hz
- 100-120V 60Hz

## Design & Capacity

Jug Capacity	1.75 L
Max Soup Capacity	1.4 L
Blade Material	8" Cold-forged SUS304 Stainless Steel

## Control & Functions

Control Interface	LED display window with touchable LOCK and DIY settings
Pre-programmed Functions	Soy Milk, Smoothie, Soup, Porridge, Grinding, Self-clean, Pulse

## Safety & Construction

### Safety Systems

- Dual safety locks (base and lid)
- Safety micro-switch
- Overheat protection
- Non-stick hot plate

## Logistics

### Container Loading Capacity

Container Type	Quantity (pcs)
20'GP	754
40'GP	1560
40'HQ	1830

## Compliance
