

Multifunctional Portable Power Station with Solar Recharge

This portable power station provides a reliable power source for various applications where electricity is needed. It features multiple output ports for versatile connectivity and is designed for both indoor and outdoor use.

Overview

Versatile Energy Solution for Outdoor and Emergency Use

This multifunctional portable power station is designed to provide reliable energy for camping, fishing, and emergency backup. Featuring high-capacity lithium-ion technology and a pure sine wave inverter, it ensures stable power for sensitive electronics without risk of damage. With multiple charging methods including solar, AC, and vehicle inputs, it offers a truly flexible power solution for any environment.

Key Features

SUPER ADVANTAGE
OUTDOOR MOBILE ENERGY STORAGE POWER SUPPLY
LIGHTNING FAST CHARGING

- FAST CHARGE
- LITHIUM BATTERY
- ILLUMINATION
- AUTOMOTIVE GRADE CELLS
- STABILIZE
- VARIOUS INTERFACES

Core Advantages

Fast Charge, Lithium Battery, LED Illumination, Automotive Grade Cells, Voltage Stabilization, Pure Sine Wave

Performance Metrics

Performance Highlights

280000 mAh

Max Battery Capacity

1000 W

Rated Output Power

10 ms

UPS Switching Time

Model Comparison

Technical Specifications by Model

Model	Capacity (Wh)	Rated Power	Solar Input
ES-300	319.68Wh	300W	18V/100W
ES-500	532.8Wh	500W	18V/100W
ES-1000	1065.6Wh	1000W	24V-30V/240W

Connectivity

Available Interfaces

- AC Output (110V/220V)
- USB QC3.0 Ports (Dual Channel)
- Type-C PD 65W Ports (Dual Channel)
- DC 12V/5A Regulated Output
- Vehicle Interface
- Solar Charging Input

Charging & Input

Recharging Options

AC Wall Charging • Solar Panel Compatible • 12V/24V Car Charging

Safety & Design

Safety and Protection

- Pure Sine Wave Inverter
- Over-power Protection (up to 1030W on ES-1000)
- Integrated Cooling Fan
- Fault Charge Indicator
- Automotive Grade Battery Cells

Physical Dimensions

Product Dimensions (ES-1000)

36cm (L) x 14cm (W) x 21cm (H)
