

Multifunctional Road Sweeper

This versatile road sweeper is designed for efficient cleaning and maintenance in all seasons. Equipped with advanced sweeping and vacuuming systems, it effectively removes debris, dust, and pollutants from various road surfaces.

Product Overview

Versatile All-Season Maintenance

The Multifunctional Road Sweeper is a comprehensive sanitation vehicle designed for year-round operation, filling a critical gap in the sanitation market. Launched in late 2019, this versatile machine integrates sweeping, washing, vacuuming, and low-pressure water sprinkling into a single platform. By combining multiple maintenance functions into one vehicle, it significantly reduces fleet acquisition costs and ensures efficient cleaning performance across all seasons.

Technical Specifications

Gross Vehicle Weight	10000 kg
Core Functions	Sweeping, Washing, Vacuuming, Low-pressure sprinkling
Market Launch	November 2019

Operational Features

Seasonal Usage

All-season • Year-round operation

Ideal Applications

- Municipal cleaning
- Construction sites
- Industrial areas
