Product Overview

Versatile All-in-One Kitchen Robot

This multifunctional thermo cooking mixer is a professional-grade appliance designed to automate complex culinary tasks. It integrates the functionality of a blender, cooker, steamer, dough maker, and more into a single, efficient 3-liter unit. Equipped with precision temperature and speed controls, it simplifies meal preparation for high-volume or varied kitchen requirements.

Technical Specifications

Power Performance

500 W

Motor Power

1000 W

Heating Power

Operating Parameters

Parameter	Range
RPM Speed	100 - 4500 rpm
Temperature	20°C - 120°C
Time Setting	Up to 100 minutes

Variable Speed Modes

- Speed 1-5: Kneading
- Speed 6-11: Blending
- Speed 12: Pulse/Ice crushing

Safety & Certification

Safety Systems

- Security Check System (closure verification)
- Dry boil protection
