

Multifunctional Wire Stripping Pliers

These multifunctional pliers are designed for stripping wires of various gauges. They also include a cutting blade and a crimping function for terminals up to 16mm².

Product Overview

Professional Multifunctional Pliers

These versatile stripping pliers are engineered for precision and durability in demanding electrical environments. Featuring a robust CR-V steel construction, they provide reliable performance for stripping, cutting, and crimping tasks. The ergonomic TPR double-color handle ensures user comfort and control, making them an essential tool for electrical and automotive professionals.

Technical Specifications

Material	CR-V Steel
Handle Material	TPR Double Color Plastic
Crimping Capacity	16 mm ²

Stripping Capabilities

Supported AWG Sizes	8 AWG, 10 AWG, 12 AWG, 14 AWG, 16 AWG, 18 AWG, 20 AWG, 22 AWG
---------------------	---

Applications

Primary Applications

- Electrical installation
- Automotive repair
- General DIY projects
