

Multifunctional Woodworking Station

This multifunctional woodworking station is designed to perform a variety of woodworking tasks. It provides a stable and versatile platform for cutting, shaping, and assembling wood.

Overview

Professional Multifunctional Woodworking Station

The WM2200 is a versatile, portable woodworking machine engineered for high-performance shop tasks. It seamlessly integrates planing, sawing, milling, and drilling capabilities into a single robust unit, making it an ideal solution for efficient workshop space utilization. With a powerful 2.2 kW motor and precision-engineered tables, this station is designed to handle demanding woodworking projects with accuracy and reliability.

Performance Metrics

Key Performance Metrics

2.2 kW

Rated Power

5500 revs/min

Idle RPM

85 mm

Max Sawing Depth

Technical Specifications

Machine Specifications

Feature	Specification
Model	WM2200
Item Number	570003
Working Mode	S6-40
Quantity of Knives	2 pcs
Knife Length	250 mm

Capacity & Dimensions

Capacity & Dimensions

- Max. one-way planing thickness: 250 mm
- One-way planing depth: 0-3.5 mm
- Max. planing thickness (clamping device): 250 mm
- Max. thickness of clamped object: 60 mm
- Cutting/Planing angle range: 0-45 degrees
- Saw blade diameter: 250 mm

Table Dimensions

Table Dimensions

Function	Dimensions (LxW)
Saw Table	750x510 mm
Planing Table	882x318 mm
Milling/Drilling Table	370x200 mm

Logistics

Logistics & Weight

- Packing Size: 92x58x30 cm
- Net Weight: 59 kg
- Gross Weight: 62 kg
