

Multiplex RT-PCR Test Kit

This is a real-time multiplex RT-PCR test kit. It allows for reliable diagnosis due to its high sensitivity and specificity, and it is compatible with sputum, bronchoalveolar lavage, and nasopharyngeal or throat swab specimens.

Product Overview

Clinical Diagnostic Solution

The Multiplex RT-PCR Test Kit is designed for high-performance molecular diagnostics. It provides reliable results with high sensitivity and specificity for professional laboratory environments. The kit is versatile and supports a range of clinical specimen types including sputum, bronchoalveolar lavage, and nasopharyngeal or throat swabs.

Technical Specifications

Compatible Specimens

- Sputum
- Bronchoalveolar lavage
- Nasopharyngeal swab
- Throat swab

Target Identification

HBV

Assay Methodology

Real-time Multiplex RT-PCR

Performance Profile

High Sensitivity, High Specificity, Multiplex Analysis
