Product Overview

Versatile Industrial Cutting Solution

This heavy-duty 3-in-1 multipurpose scissor is engineered for diverse industrial and DIY applications, ranging from construction tasks to precision crafting. Featuring a durable stainless steel blade with titanium coating, it effortlessly handles tough materials including copper, aluminum, and steel wire. Designed with user comfort in mind, the ergonomic handle reduces hand fatigue during extended use, making it an essential tool for professional environments.

Technical Specifications

Blade Capabilities

- Integrated wire cutter
- Retractable utility knife function
- Includes 4 additional blades stored in handle

Materials

Stainless Steel, PVC, Titanium Coating

Application & Usage

Suitable Materials

Copper Wire • Aluminum Wire • Steel Wire • Boxes • Carpet • Drywall • Soft Pipe • Fiber • Wood • Paper

Primary Use Cases

- Electrical projects
- Construction and DIY
- Outdoor survival
- Garden pruning
