

# Multipurpose Steam Cleaning System

This steam cleaning system is designed for versatile cleaning tasks. It features a standing design with a telescopic pole and a handheld steam nozzle for targeted cleaning of floors, upholstery, and garments.

## Overview

### Professional Steam Cleaning Performance

The HB-998 Multifunctional Steam Cleaner offers a powerful and versatile solution for deep cleaning tasks. With a 1500W heating system and 3.5BAR steam pressure, it effectively sanitizes and cleans various surfaces including floors, upholstery, and garments. Designed for efficiency, this unit features a 2.0L tank capacity providing up to 70 minutes of continuous steam availability.

## Technical Specifications

### Steam Pressure

**3.5 BAR**  
Pressure

Power Consumption	1500 W
Voltage Support	100-127V / 220-240V
Steam Flow Rate	50 G/MIN
Operating Temperature	160

## Capacity & Performance

Total Tank Capacity	2 L
Rated Water Capacity	1.5 L
Heating Time	Approx 10 MIN
Continuous Steam Time	Approx 70 MIN

## Compliance & Safety

### Certifications

CE • GS • RoHS

Fuse Switch Temperature	240
-------------------------	-----

## Logistics

### Container Load Capacity

Container Type	Units	Cartons
20GP	438	219
40GP	860	430
40HQ	1012	506
