

Multipurpose Steam Cleaning System

This steam cleaning system is designed for versatile household cleaning. It utilizes steam to sanitize surfaces, featuring a wheeled base unit and handheld wand with a floor cleaning head.

Product Overview

Professional-Grade Steam Cleaning

This multifunctional steam cleaner is designed to deliver powerful sanitization and deep cleaning for a variety of surfaces. With a robust 1500W heating element and a 3.5BAR steam pressure output, it effectively tackles dirt and bacteria without the need for harsh chemicals. The system features a large 2.0L tank capacity, ensuring extended runtime for demanding cleaning tasks in both residential and commercial environments.

Technical Specifications

Steam Pressure

3.5 BAR

Pressure

50 G/MIN

Steam Flow

Voltage Compatibility

- 100-127V~
- 220-240V~

Power Output

1500 W

Water Tank Capacity

2 L

Operating Temperature

160

Heating Time

Approx 10 MIN

Continuous Steam Time

About 70 MIN
