

# Mung Beans

Mung beans are small, green legumes used in various cuisines. They are often used in soups, salads, and desserts.

## Product Overview

### Premium Quality Mung Beans

These high-quality mung beans are sourced for their uniform size, smooth texture, and vibrant green color. Ideal for a wide range of culinary and industrial applications, they feature a distinct pale white hilum and a glossy finish, indicating freshness and proper processing. These beans are a versatile staple, perfect for sprouting, soups, curries, or as a base for various food ingredients.
