Product Overview

Industrial Grade Safety Switch

This mushroom head emergency stop push button switch is engineered for high-reliability in industrial machinery and control systems. Featuring an IP65 waterproof and dust-resistant rating, it ensures consistent operation in demanding environments. The design utilizes high-grade anti-flam plastic and silver alloy contacts for superior electrical erosion resistance and long-term durability.

Technical Specifications

Specializing in production of buttons and indicators since 1997

Technical diagram showing contact configuration and rated voltage specifications.

Electrical Ratings

660 V

Rated Insulation Voltage

10 A

Thermal Current

Performance Metrics

Parameter	Value
Insulation Resistance	e5M©
Contact Resistance	d2m©
Withstand Voltage	AC 2.5KV/min
Indicator Brightness	60cd/m2

Design & Construction

XDL21-EC42

Emergency stop
Spring return

N/C

- Black $\Phi 40$ XDL21-EC22
- Green $\Phi 40$ XDL21-EC32
- Red $\Phi 40$ XDL21-EC42

Physical dimensions and mounting specifications for the M22 emergency stop series.

Mounting & Dimensions

- Mounting Hole Diameter: 22mm
- Mushroom Head Diameter: 40mm
- Maximum Panel Thickness: 5mm
- Overall Height: 49mm
- Head Height: 25.8mm

Certifications

CE, ISO 9001, RoHS, UL, IEC60947-5-1
