

MZ-415 Gravity Feed Spray Gun

The MZ-415 spray gun is designed for various coating applications. Its adjustable controls allow precise regulation of paint flow and spray pattern, ensuring consistent and professional results.

Product Overview

Professional Performance Gravity Feed Spray Gun

The MZ-415 is a versatile gravity-feed spray gun engineered for consistent and high-quality coating applications. Featuring a durable construction and ergonomic design, it minimizes operator fatigue while providing precise control over paint flow and spray patterns. This reliable tool is perfectly suited for professionals working in automotive refinishing, woodworking, and general industrial painting projects.

Technical Specifications

Feed System	Gravity Feed
Cup Material	Translucent Plastic

Features

Capabilities

- Adjustable spray pattern control
- Precise paint flow regulation
- Easy disassembly for maintenance
- Ergonomic handle for extended use
- High-wear resistance construction

Applications

Industry Applications	Automotive Refinishing, Woodworking, Industrial Coating, General Painting
