

# N95 Mask Sealing Machine

This machine is designed for the efficient sealing of N95 masks. The automated system enhances productivity by processing multiple masks simultaneously with its six-head configuration and includes an edge bonding mechanism for a secure and reliable seal.

## Product Overview

### N95 Mask Sealing Machine

This specialized N95 sealing machine is designed to streamline mask production with high efficiency. Featuring a six-head configuration, it allows for the simultaneous processing of multiple masks, significantly enhancing output. The system integrates a precise edge bonding mechanism to ensure secure and reliable seals, making it an ideal solution for manufacturers looking to optimize their production lines.

## Performance Metrics

### Production Rate

**25 pcs/min**  
Minimum Output

**30 pcs/min**  
Maximum Output

## Technical Specifications

Head Configuration	6 heads
Operational Features	Edge Bonding, Manual Loading, Automatic Removal
