Product Overview

Natural Sisal Fiber Twine

This 3-ply twisted twine is crafted from natural sisal fibers, offering a sustainable and eco-friendly solution for various industrial and residential needs. It features high tension and abrasion resistance, making it suitable for demanding applications in agriculture, gardening, and construction. The twine's natural texture ensures excellent knot-holding ability and a reliable grip for binding tasks.

Technical Specifications

Construction	3-Ply Twisted
Material	Natural Sisal Fiber

Performance Features

Performance Qualities	High Tension, Abrasion Resistant, Non-skid, Corrosion Resistant
-----------------------	---

Applications

Primary Applications

- Agriculture
- Gardening
- Construction
- Packaging
- General Household Use

Safety Guidelines

Critical Usage Warnings

- Not for overhead lifting
- Do not exceed working load limit
- Shock loads can reduce strength by 33%
- Knots reduce rope strength by 40%
- Replace if fibers show wear and tear
