

# NBR Rubber Mining Hose

This NBR rubber hose is designed for underground mining applications. It features a thick wall and abrasion resistance.

## ADDITIONAL IMAGES

## Product Overview

### High-Performance NBR Mining Hose

This robust mining hose is engineered with a premium Nitrile/TPR blend tube and cover, featuring a ribbed exterior for enhanced durability. Designed for demanding environments, it utilizes 100% virgin high-tenacity polyester reinforcement to ensure structural integrity under pressure. It is an ideal solution for water discharge, sludge pumping, liquid fertilizer transfer, and chemical industry applications.

## Technical Specifications

### Operating Temperature Range

**-25 °C**

Minimum Temperature

**100 °C**

Maximum Temperature

### Standard Lengths

- 15m (50ft)
- 20m (66ft)
- 30m (100ft)
- 60m (200ft)
- 90m (300ft)
- 200m (660ft)
- 300m (990ft)

### Material Composition

Nitrile/TPR Blend, High Tenacity Polyester

## Applications

### Primary Applications

Water Discharge • Sludge Pumping • Liquid Fertilizers • Chemical Industry • Refineries • Irrigation • Air Pressure
