

NEMA 5-15P Hospital Grade Power Plug

This is a NEMA 5-15P hospital grade plug. It features robust construction and meets strict hospital-grade standards.

Overview

Professional Hospital Grade Connectivity

This NEMA 5-15P power plug is engineered specifically for hospital-grade applications where safety, reliability, and durability are paramount. Designed to meet rigorous electrical standards, it ensures a secure and stable connection in demanding medical environments. Its robust construction provides the grounding integrity required for critical equipment operation.
