

Neoprene Immersion Survival Suit

This immersion suit is constructed from 5mm thick neoprene for thermal insulation. It includes an integrated buoyancy pillow, eliminating the need for a separate life jacket.

Product Overview

Professional Marine Survival Solution

This neoprene immersion survival suit is engineered for critical marine safety, providing essential buoyancy and thermal insulation in emergency situations. The design ensures full-body coverage, incorporating integrated gloves and a protective hood to minimize heat loss and water exposure. Built for high-visibility and reliability, it is an indispensable safety asset for maritime environments.

Key Features

Performance Metrics

150 N
Buoyancy Rating

Material	Neoprene
Safety Features	Waterproof Zipper, Integrated Gloves, Integrated Hood, Reflective Tape

Usage

Suitable Environments

- Maritime vessels
- Offshore platforms
- Search and rescue operations
