Overview

Professional Network Diagnostic Tool

This versatile network cable tester and tracer is designed for locating and tracking buried or hidden wires, including electrical, telephone, and pet fence lines. It features multi-functional capabilities for RJ11 and RJ45 cable testing, supporting wire sequence proofreading and state testing. With anti-interference technology and PoE support, it ensures accurate diagnostics in complex network environments.

Key Features

Core Functionalities

- Locating and tracking buried and hidden wires
- RJ11 and RJ45 cable sequence proofreading
- Wire state testing and continuity checks
- Long length cable tracking
- Anti-interference PoE network testing
- Low voltage warning function
- Adjustable volume and headset support

Technical Specifications

Operation Modes

SCAN • TEST • POE • VERIFY

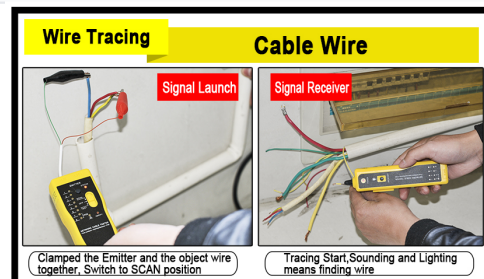

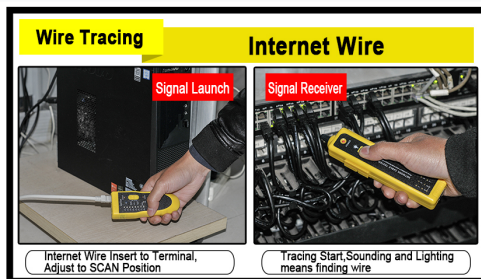

Rated Voltage

60 V

Supported Terminals

RJ11, RJ45

Tracing Capabilities

Detectable Materials

- Internet Wires
- Telephone Wires
- Metal Conductors
- Electrical Wires
- Pet Fence Wires
- Metal Pipes

User Interface

Visual & Audio Indicators

- Wire Sequence Indicators (1-8, G)
- Signal Strength Indicator
- Status & Power LEDs
- Audible Tone (Sounding)
- Integrated Lighting for dark areas

Package Contents

What's in the Box

Item	Quantity
Emitter Unit	1 PC
Receiver Unit	1 PC
RJ45 Cable	1 PC
RJ11 Cable	1 PC
Crocodile Clamp Cable	1 PC
9V Battery	2 PCS
