

Network Communication Hub

This network communication hub enables efficient data transmission. It features a compact design with multiple connection ports for versatile network applications.

Overview

High-Performance Network Communication Hub

The Network Communication Hub is a compact and versatile solution designed for seamless connectivity in diverse network applications. Engineered for precision, it features a robust layout with multiple connection ports to support complex data environments. Its efficient, space-saving design ensures it integrates easily into existing infrastructure while maintaining high operational standards.

Physical Dimensions

Width	165 mm
Depth	150 mm
Height	35 mm
Mounting Hole Spacing	120 mm
Port Clearance	15 mm
