

Ni-MH AA Rechargeable Batteries 1.2V 2300mAh

Ni-MH AA rechargeable batteries offer a voltage of 1.2V and a capacity of 2300mAh. These batteries provide a reliable power source and are designed for environmental protection, suitable for various electronic devices.

Product Overview

High-Capacity Rechargeable Power

These Ni-MH AA rechargeable batteries offer a reliable and eco-friendly power solution for a wide range of electronic devices. With a capacity of 2300mAh and a standard 1.2V output, they are designed to provide consistent performance for high-drain equipment. The batteries are supplied in convenient two-packs, making them an efficient choice for professional and consumer applications.

Technical Specifications

Capacity

2300 mAh

Capacity

Battery Chemistry	Nickel-Metal Hydride (Ni-MH)
Battery Size	AA
Nominal Voltage	1.2 V

Packaging & Logistics

Pack Quantity	2 units
