

# Ni-MH Rechargeable Battery 1.2V 3800mAh

Rechargeable Ni-MH battery with a 3800mAh capacity and 1.2V voltage. It is designed for various electronic devices needing long-lasting power.

## Overview

### High-Capacity Power Solution

This 1.2V Ni-MH rechargeable battery offers a substantial 3800mAh capacity, making it an ideal power source for high-drain electronic devices. Designed in the 4/3A form factor, it provides reliable energy density for demanding applications. Its rechargeable chemistry ensures long-term usability and cost-effectiveness for professional equipment.

## Technical Specifications

### Capacity

**3800 mAh**

Capacity

<b>Battery Chemistry</b>	Ni-MH (Nickel-Metal Hydride)
<b>Nominal Voltage</b>	1.2 V

## Physical Characteristics

### Battery Size

4/3A

## Features

### Key Features

- Rechargeable design
- High capacity for extended runtime
- Standard 1.2V output
