

Ni-MH Rechargeable Battery Pack 2.4V 650mAh

This Ni-MH rechargeable battery pack has a 650mAh capacity and 2.4V voltage. It is designed for various electronic devices, providing reliable power and long-lasting performance.

Overview

Reliable Power Solution

This Ni-MH rechargeable battery pack is engineered to provide consistent and reliable power for a wide range of electronic devices. With a voltage of 2.4V and a capacity of 650mAh, it offers a dependable energy source for your equipment. Designed for durability and performance, this pack is an essential component for various B2B applications.

Technical Specifications

Key Performance Metrics

2.4 V Voltage	650 mAh Capacity
-------------------------	----------------------------

Battery Chemistry	Ni-MH (Nickel-Metal Hydride)
Rated Voltage	2.4 V
Rated Capacity	650 mAh

Manufacturing

Country of Origin	China
Key Features	Rechargeable, Ni-MH, Reliable Power
