

# Ni-MH Rechargeable Battery Pack 3.6V 350mAh

This is a Ni-MH rechargeable battery pack with a 3.6V voltage and 350mAh capacity. It is designed for cordless phones and other electronic devices.

## Product Overview

### Reliable Power Solution

This 3.6V Ni-MH rechargeable battery pack is engineered for consistent performance in cordless phones and various small electronic devices. With a 350mAh capacity, it provides a dependable power source for daily operations. Its compact design ensures easy integration into existing hardware configurations.

## Technical Specifications

Nominal Voltage	3.6 V
Rated Capacity	350 mAh
Chemistry	Ni-MH (Nickel-Metal Hydride)
Rechargeable	Yes

## Manufacturing

Country of Origin	China
Product Features	Rechargeable, Compact Design
