

Nitrile Coated Polyester Hand Protection Gloves

These gloves feature a durable nitrile coating over a polyester liner. They provide excellent abrasion resistance, puncture resistance and dexterity for tasks such as gardening, construction, and general maintenance.

Product Overview

Professional Hand Protection

These high-quality gloves feature a durable nitrile coating applied over a flexible polyester liner, engineered for professional-grade hand protection. They offer a superior combination of abrasion and puncture resistance while maintaining excellent dexterity for intricate tasks. Designed for versatility, they are an ideal choice for construction, general maintenance, and landscaping applications.

Technical Specifications

Certifications

CE Certified

Material Composition

Nitrile Coating, Polyester Liner

Size

11" (XXL)

Model Number

DT12-F53083

Usage & Applications

Recommended Applications

- Construction
- Gardening
- General Maintenance

Key Performance Features

- Abrasion Resistant
- Puncture Resistant
- Enhanced Grip
- High Dexterity
