

Nokia Mobile Phone Battery with USB Charging Cable

Rechargeable lithium-ion battery designed for use in compatible Nokia mobile phones. It comes with a USB charging cable featuring a standard USB-A connector on one end and a proprietary Nokia connector on the other.

Product Overview

Reliable Power Solution for Mobile Devices

This mobile phone battery kit provides a dependable power source for compatible handheld devices. It includes a rechargeable lithium-ion battery designed for efficient energy storage and a dedicated USB charging cable for convenient connectivity. The system ensures your device remains powered using standard USB-A charging ports found on computers and wall adapters.
