

# Non-Sparking Bolt Cutter with Wire Stripper and Crimper

This non-sparking tool is designed for cutting bolts and wires in hazardous environments. It is suitable for use where flammable vapors, liquids, gases, or dusts are present.

## Overview

### Professional Non-Sparking Tooling

This heavy-duty bolt cutter is engineered for safe operation in hazardous environments where flammable vapors, liquids, or dusts are present. Designed for versatility, it combines bolt cutting, wire stripping, and crimping capabilities into a single, durable tool. Ideal for industries such as petroleum, chemical processing, mining, and power generation, it effectively prevents sparking during impact or friction.

## Technical Specifications

### Material Hardness

Material	Hardness
Aluminum Bronze	25 HRC
Beryllium Copper	35 HRC

### Tensile Strength

Material	Strength
Aluminum Bronze	75-85 kgf/mm
Beryllium Copper	105-120 kgf/mm

### Available Colors

- Natural
- Green

Tool Length	600 mm
Material Composition	Aluminum Bronze, Beryllium Copper

## Compliance & Quality

### Key Features

Non-Sparking • High-Leverage Design • Corrosion Resistant • Long Service Life

Certifications	ISO 9001, UKAS
----------------	----------------

## Application

### Suitable Industries

- Petroleum Industry
- Chemical Industry
- Power Generation
- Railroad
- Mining
