Product Overview

Safety-First Handling

This non-sparking shovel is engineered for high-risk environments where flammable or explosive materials are present. Constructed from durable brass, the blade prevents the generation of dangerous sparks during operation. It features a sturdy wooden handle and an ergonomic red D-grip, making it a reliable and safe tool for industries such as mining, chemical processing, and construction.

Technical Specifications

Available Blade Configurations

- Point shovel
- Square shovel
- Dust pan

Material	Brass
Safety Properties	Non-sparking, Explosion-proof
Handle Construction	Wooden handle with red D-grip

Applications

Recommended Industries

Construction • Mining • Chemical Industry
