Product Overview

Professional Non-Sparking Wrench Set

This combination wrench set is engineered for safety in hazardous environments where flammable or explosive atmospheres are present. Featuring both box-end and open-end designs, these tools provide versatile fastening solutions for industries such as petrochemical, mining, and railway maintenance. Constructed from specialized copper alloy, they are built to minimize ignition risks while maintaining durability and performance.

Technical Specifications

Certifications

ISO 9001 • UKAS

Material	Copper Alloy
Manufacturing Technique	Casting or Forging
Surface Finish	Polished, Electrostatic Spraying

Product Details

Size Range	6mm - 32mm
Design	Combination (Box End & Open End)
Packaging	Individual bag and box

Usage & Applications

Recommended Industries

- Petrochemical
- Mining
- Gas Stations
- Railway
