

Non-Sparking Diagonal Cutting Pliers

These diagonal cutting pliers are made from aluminum bronze or beryllium copper. They are designed for use in environments where sparks could cause ignition or explosion.

Product Overview

Non-Sparking Diagonal Cutting Pliers

These 8-inch diagonal cutting pliers are engineered specifically for use in hazardous environments where flammable vapors or combustible materials are present. Constructed from beryllium copper, they provide essential non-sparking properties to prevent ignition and explosions. They feature precision-machined cutting edges for clean, accurate cuts, making them an indispensable tool for maintenance and repair professionals in high-risk industries.

Technical Specifications

Safety Features

Non-Sparking • Insulated Handles

Tool Length	8 inch
Material	Beryllium Copper

Industry Applications

Suitable Industries

- Petrochemicals
- Fireworks Industry
- Mines
- Refineries
- Chemical Industry
- Defense
- Gas & Oil Pipelines
- Flour Silos and Mills
- Air Forces
- Power Stations
- Breweries
- Navy
- Paint Manufacturing
- Alcohol Processing
- Weapon & Ammunition Fabrication
- Plastic Manufacturing
- Distilleries
- Aerospace Industry
- Pharmaceutical Industry
- Fire-Fighters
- Automobile Industry
