

# Non-Sparking Slotted Screwdriver

This non-sparking screwdriver is designed for use in hazardous environments. It features a slotted tip and is constructed from aluminum bronze or beryllium copper.

## Overview

Non-sparking slotted screwdriver designed for hazardous environments.

## Safety-First Engineering

This non-sparking, explosion-proof slotted screwdriver is engineered specifically for use in volatile environments where flammable gases, vapors, or dust may be present. Combining high-quality material construction with an ergonomic design, it ensures both safety and operational efficiency. It is an essential tool for professionals working in oil refineries, chemical processing plants, and mining operations.

## Material & Safety

### Certifications

ISO 9001

### Material

Aluminum Bronze, Beryllium Copper

## Technical Specifications

### Dimensions and Weight

Model	L1 (inch)	L1 (mm)	Total Length (mm)	Be-Cu Weight (g)	Al-Cu Weight (g)
260-02	2"	50	145	35	32
260-04	4"	100	195	45	42
