

Non-Sparking Striking Open End Wrench

This striking open end wrench is designed for use in hazardous environments. The tool is manufactured from non-sparking materials to prevent ignition in explosive atmospheres.

Product Overview

Safety-Critical Striking Wrench

Designed for hazardous environments, this striking open-end wrench is engineered to prevent sparks during operation, making it essential for use where flammable vapors, liquids, gases, or dusts are present. It is widely utilized in industries such as petroleum, chemical processing, power generation, and mining. The tool features a fixed-size opening for reliable bolt and nut manipulation and is manufactured according to strict safety standards.

Technical Specifications

Material Options

Beryllium Copper Alloy • Aluminum Bronze

Size and Specification Table

No.	mm	1/AF	No.	mm	1/AF
101	17	5/8	116	51	1-5/8
102	19	11/16	117	55	1-11/16
103	21	3/4	118	60	1-3/4
104	22	13/16	119	65	1-5/8

Manufacturing Standard GB / T4392-1995

Measurement Systems Metric, Inch

Applications

Suitable Industries

- Petroleum Industry
- Chemical Industry
- Power Generation
- Railroad
- Mining
